

Duoline Panels

INSTALLATION INSTRUCTIONS

PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE INSTALLATION AND LEAVE A COPY WITH THE END USER FOR FUTURE REFERENCE.

SAFETY INFORMATION – We recommend that luminaires be installed by a fully qualified and competent electrician who understands building regulations and the current IEE wiring regulations. The light source contained in this luminaire shall only be replaced by the manufacturer or a qualified professional.

Before commencing any installation or maintenance work, ensure that the electricity is switched off at the mains.

IMPORTANT USER INFORMATION

Please install and use strictly in accordance with these instructions. Make sure that you have all the tools and equipment to complete the installation safely and correctly. Improper installation could cause harm to your property and/or person and void your warranty.

It is the installer's responsibility to consider fire and safety risks and take appropriate precautions.

PRE INSTALLATION INSTRUCTIONS & GUIDELINES

- Ensure the supplied LED driver is used to connect to the AC input.
- Do not disassemble or amend the structure of the luminaire as this can be dangerous and would void your warranty.
- The luminaire must be installed on to a ceiling which is firm enough to hold the weight of more than five times of the fitting itself.
- The luminaire must not be installed above hot objects such as ovens to avoid damage to the fitting.
- Ensure there is adequate space for ventilation around the fitting.
- The space height between the ceiling and the roof must be higher than 20mm above the height of the fitting.
- Ensure that all electrical connections are tight with no loose strands.
- **Do not** place the driver or emergency pack (if used) on top of the panel

SPECIFICATION

Part Code	Description	Wattage
R282201	Duoline 595 x 595mm 40W LED anel with dual rectangular louvres	40W

Duoline Panels

RECESSED INSTALLATION STEPS
